1	M/s A.M Sales & Services	Hematology Analyzer	Cell Tac Alpha MEK 1301 by Nihon Kohden /Japan	Non-Responsive	Valid Free Sales certificate issued by regulatory authority/Chamber of commerce of the country of manufacturer (No)	This is to certify and clarify that the MHLW (Ministry of Health, Labour and Welfare, Japan) Certificate issued for our quoted product serves as the official Free Sale Certificate. The certificate explicitly states that the concerned product is approved and freely marketed in Japan, which fulfills the fundamental requirement of a Free Sale Certificate, i.e., confirmation that the manufacturer's product is legally marketed and freely available in the country of origin. Furthermore, the submitted MHLW certificate has been duly attested by the Embassy, ensuring its authenticity and international acceptability. Globally, the MHLW-issued certification is widely recognized and accepted as a valid Free Sale Certificate, as it confirms regulatory approval and free commercial availability of the product in Japan. An official manufacturer's letter regarding this clarification is also attached for reference and record. We therefore request that the enclosed MHLW-attested certificate be kindly treated as the official Free Sale Certificate for the quoted product.	The representative of the firm attended the meeting and grievance submitted by the aggrieved firm was heard in detail by the Grievance Redressal Committee (GRC) in the light of advertised evaluation criteria of bidding documents, technical evaluation report and submitted documents. The firm provided the relevant document to substantiate claims of documentary evidence regarding Free Sale Certificate, which was accepted. Hence, the status of the quoted item changed to Responsive.

Please be informed that the worthy technical evaluation committee declared our quoted dental uni non-responsive due to two minor points. Details with the clarification are as follows.It is clarified that we only quote 1 bid. So this observation is not valid. In this regard, we would like to clarify that we have fulfilled this clause. We have a foreign-qualified, trained engineer as well as a locally trained engineer. Documentary evidence is attached to the bid, also with this letter. For a foreign-trained engineer, we have attached the visa documents and the training certificate to this letter. In this regard, we would like to clarify that LED Spa, Italy, is the manufacturer of the equipment, and BMS Dental s.r.l, Italy, is the brand name of our equipment, so mentioning "BMS/ LED Spa, Italy" is not the alternate quoting. The report confirms that no objection was raised regarding the main equipment, i.e., the Dental Unit. However, our technical bid has been declared non-responsive on the ground that there is an ambiguity in the model's name of dental cautery (electrosurgical unit), which is one of the minor accessories, were mentioned. We respectfully clarify that: The model we quoted is Dental Cautery (Electrosurgical Unit) ES-20 by AZDENT-China, for which detailed technical specifications and features were provided with our technical offer. The technical brochure of only ES-20 model was duly attached with our bid. Surgery Plus by Carlo di Griogi (Italy) model name of dental cautery, appeared only in the compliance-sheet due to a typographical error. This model was neither quoted in our main technical bid nor supported by any brochure or specifications. These facts can be verified from our submitted technical offer, which clearly establishes ES 20(AZDENT China) as the quoted model. Moreover, in remarks column it is mentioned that there is conflict in origin of Instruments. However. it is quite clearly mentioned in our bid that the instruments are locally made with the brand name of Orange. Considering the above, we kindly request the	The representative of the firm attended the meeting and grievance submitted by the aggrieved firm was heard in detail by the Grievance Redressal Committee (GRC) in the light of advertised evaluation criteria of bidding documents, technical evaluation report and submitted documents. 1. The firm's stance regarding the conflict in origin (China/ Local) of Accessories (Dental Cautery) was accepted. 2. The firm was provided an opportunity to submit the technical data sheet/ brochure to evaluate the product with respect to specifications compliance because technical data sheet of quoted model was not attached with bid. The firm provided the technical manual and after evaluation the product was found non-compliant w.r.to specifications, so the grievance of the firm was not accepted to the extent of this parameter. Purchase Order/Contract & Delivery Challan/Payment Proof from 03 different institutes of the same product from public sector: No	We respectfully submit our representation against the technical evaluation of our bid for Package No. 58 (Tablet), and 59 (Thermal Printer) which has been declared non-responsive. The observations regarding trained technical staff, engineering workshop and calibration tools appear to be misapplied, as tablets are IT/electronic devices and do not require biomedical calibration. After-sales support is provided through OEM warranty and authorized service arrangements. The observation regarding managerial capability is curable in nature. Relevant organizational and managerial documents can be submitted for review. The quoted model availability on the manufacturer's website can be substantiated through manufacturer confirmation and official datasheets. The requirement of three-year local brand history and public sector supplies may kindly be reconsidered/relaxed under the framework contract, as the product is supplied through an authorized distributor with adequate supply capability.	No representative from the firm attended the meeting. The Grievance Redressal Committee (GRC) examined the grievance submitted by the aggrieved firm in detail in the light of advertised evaluation criteria of bidding documents, technical evaluation report and submitted documents. The GRC observed that the firm failed to provide the requisite documents and no evidence was provided in the support of his grievance regarding all observations, so the grievance of the firm was not accepted. Hence, the status of the said item remained Non-Responsive .

						With due respect reference to the mentioned subject we M/s NexTek Health Care who is the sole distributor of Beckman Coulter for Hematology analyzers & DIASYS Germany in all over Pakistan has some reservations against the above captioned tender and technical evaluation report uploaded dated: 4 ^ m February 2026 category A Package No/Tender number 50 for the purchase of Chemistry Analyzers. We would like to drag your kind attention towards an important point into the evaluation report in which you have identify that the above mentioned firm don't have "Valid Free Sales certificate issued by regulatory authority/Chamber of commerce of the country of manufacturer" It has been written into report that as mentioned "NO" and below you have declared as a Responsive. We would request you to please clarify the above technical evaluation points for a healthy and quality competition ahead. Secondly we also have some reservations against this firm because as per the tender criteria they don't have the required number of installations and proof of 10 years details of experience and being a competitor we have not seen the above quoted analyzers installations in healthcare institutes. For further they don't have any managerial service staff and-foreign trained engineer as per the required criteria into the bidding documents and we would request you to please

						on Manufacturer’s Official Website Observation: Availability of quoted model on official website marked as “No”. Clarification: The quoted Seamless Steel cylinder is available on the manufacturer’s official website (https://www.yacylindergroup.com/product/159mm-10-181-36mm-gbt-tped-high-pressure-vessel-seamless-steel-mixed-gas-cylinder) & (www.yongancyylinder.com), cylinders are manufactured strictly in accordance with applicable ISO/EN/DOT standards. As clarified under offered medical gas cylinders are produced as standardized pressure vessels and subsequently prepared/customized (valving, color coding, labeling, neck threading, etc.) as per standard gas application allowed under manufacturing standards such as ISO 9809, DOT etc. We respectfully submit that the availability of cylinders on the manufacturer’s website, coupled with submitted brochures and specifications in the bid page # 9-10 & 134-165, fully satisfies this requirement. 						correction of the compliance status accordingly. 2. ISO 13485 Certification of Manufacturer Observation: ISO 13485 certification marked as “No”. Clarification: ISO 13485 is applicable to medical devices, whereas medical gas cylinders are pressure vessels, governed by standards such as ISO 9809, EN, DOT, and relevant pressure equipment directives. Cylinder manufacturers are typically certified under ISO 9001 and applicable pressure vessel compliance standards, which were duly provided. (Annex-G). Hence, applying ISO 13485 as a mandatory requirement for gas cylinders is technically non-applicable. Hence we submit the above said documentation as annex-G. Prayer / Request Pakistan Oxygen Limited respectfully requests reconsideration of this point and correction of the compliance status accordingly. 3. Quality Compliance Standards Observation: Quality compliance was marked as “No (ISO 9001 and ISO 22000 attached)”. Clarification: Pakistan Oxygen Limited complies with all applicable quality standards relevant to the manufacturing, filling, and supply of medical gases. All quality certificates are attached in the submitted bid. (Page #210-220) It is further clarified that the submitted sample cylinder is

Additionally, the ISO 9809-1 (or equivalent) Compliance Certificate is being submitted along with this grievance report as (Annexure H) for kind review and consideration. Furthermore, Pakistan Oxygen Limited has also submitted ISO 9001, ISO 22000, and other relevant ISO certifications demonstrating compliance with quality management systems and controlled manufacturing processes applicable to medical gas cylinders and related operations. Prayer / Request: Pakistan Oxygen Limited respectfully requests reconsideration of this point and correction of the compliance status accordingly. 4. Minimum Three Years Local Business History of the Quoted Brand Observation: Marked as “No”. Clarification: Pakistan Oxygen Limited had attached relevant purchase orders in its technical bid. (Page# 341-820). Pakistan Oxygen Limited has been operating in Pakistan for 87 Years and has continuously supplied medical gases and cylinders to government and private hospitals. Medical gas cylinders are standardized safety products, not consumer-branded equipment, and therefore the concept of “brand history” is ambiguous in this context. The bidding documents did not clearly define methodology or

Purchase Orders from Three Public Sector Institutions Observation: Purchase Orders from three public sector institutions marked as “No”. Clarification: Pakistan Oxygen Limited had attached relevant purchase orders in its technical bid, (Page# 341-820) evidencing prior supply of medical gas cylinders to public sector healthcare institutions. As clarified during technical discussions, the supplied items relate to cylinders manufactured under applicable ISO standards, which are subsequently configured as per specific institutional requirements. 177	M/s Fine Wood Works	Office Table	OEM Local Pakistan	Responsive	N/A	Grievance of M/s Rozi Enterprises against M/s Fine wood works participating for Office Table: Out of eight (08) bidders who quoted Office Tables, four (04) were declared non-responsive. The sample submitted by M/s Fine Wood Works does not conform to the technical specifications prescribed in the Bidding Documents. Specifically, the Bidding Documents require table edges to be 32 mm thick with matching 2 mm PVC edging, properly fixed through an edge-banding machine and buffed. However, the sample submitted by M/s Fine Wood Works does not meet the required 32 mm edge thickness, and the PVC edging neither matches in thickness nor in color. Furthermore, the Bidding Documents mandate woodgrain or fabric- texture lamination, whereas the submitted sample uses plain lamination of comparatively inferior quality, with visible mismatch between the laminate surface and PVC edging. In addition, the overall structural design and finish of the sample are aesthetically inferior when compared with other competing samples. In the interest of fair, transparent, and objective technical evaluation, the Office Table quoted by M/s Fine Wood Works does not meet the prescribed specifications and should therefore be declared technically non-responsive.	<u>M/s Rozi Enterprises against M/s Fine wood works participating for Office Table:</u> Representatives of M/s Rozi Enterprises and M/s Fine wood works attended the meeting. Grievance redressal committee heard the both parties in detail. The grievance of the M/s Rozi Enterprises against M/s Fine wood works is rejected as specifications re-confirmed by the TBEC & found compliant as per specifications. Hence, Status of the said item of M/s Fine wood works remained Responsive.

						Analyzer whereas they have launched better versions of 3-Part hematology analyzers namely. Swelab Alfa Plus Standard Swelab Alfa Plus CAP Swelab Alfa Plus sampler Since they have better versions available they could have quoted the best to your institution. The Swelab Alfa Plus Basic was introduced to the general market and made available in Pakistan by local distributors around or after March 2019 rather than having a single official launch date for the Country. The product line itself built on technology that has been available since at least 2016 when new software was released. The said company has been considered regarding the ""Proof of last 10 years detail of installations of quoted brand"" though the companies offered product was launched in March 2019. Therefore 10 years will be completed in March 2029. Your institution is requiring a big quantity i.e., 322 hematology analyzers (3-Part). Please review that company with the lesser experience of around 6 years against your evaluation point of proof of last 10 years may be considered? In case they do not meet the 10 years requirement of experience they may be considered as non-responsive. Ltd. as NON-RESPONSIVE under Part I Sahar International (Pvt.) Ltd. respectfully submits this grievance against the incorrect declaration of its bid as NON-RESPONSIVE under Part I (Knock Down Criteria / Commercial Evaluation), despite full compliance with all mandatory tender requirements. The bid has been incorrectly evaluated on the following grounds: Clause 5 – Valid Authorization Certificate: A valid manufacturer agency authorization certificate was submitted, duly attested by the Embassy of Pakistan in Munich and notarized in Germany. This satisfies the tender requirement. Clause 7 – After-Sales Services	The representative from M/s Sahar International attended the meeting and grievance submitted by the aggrieved firm was heard in detail by the Grievance Redressal Committee (GRC) in the light of advertised evaluation criteria of bidding documents, technical evaluation report and submitted documents. The committee after due deliberation and discussion decided that: 1. The sole authorization certificate is not verified by the Principal. Hence, the grievance of the firm was rejected and the status of the quoted item remained Non-Responsive. <u>Grievance of M/s Eastern Medical Technology against M/s Sahar International:</u> Representatives of M/s Eastern Medical Technology and M/s Sahar International attended the meeting. 						technical capability do not include a foreign-trained engineer as specified in the bidding documents. C.M/s Kasban International's bid for Item No. 15 has been incorrectly declared RESPONSIVE under both Part I and Part II, despite the presence of multiple material non-compliances. These include the absence of a mandatory DRAP license, lack of verifiable past performance, unsubstantiated purchase orders, and insufficient technical staff and infrastructure. Based on these deficiencies, the bid does not meet the mandatory requirements of the tender and should have been declared NON-RESPONSIVE. In contrast, the bids submitted by M/s Epics Global Trading, M/s Field Supplies, M/s GET Supplies, M/s Human Healthcare, and M/s Total Technologies were rejected at Part I and Part II stages for failure to provide mandatory documentation such as valid authorizations, past performance evidence, technical staffing details, and other required supporting documents. Item No. 04 ANESTHESIA MACHINE WITH VENTILATOR Dear Sir, With reference to technical evaluation report for the subject tender, we have following grievance against M/s Vertex Medical Quoted model Drager Atlan A100: 1. M/s Vertex Medical has quoted Model Atlan A100 manufactured by Dräger Germany. As per the TAC report, the offered model is stated to be FDA 510(k) approved. However, according to the official FDA database, FDA 510(k) clearance No. K230931 was issued on July 23, 2023, whereas the quoted model Atlan A100 was reportedly released in 2025. This indicates that the quoted model may not be specifically covered under FDA 510(k) clearance No. K230931, nor is it explicitly listed under this clearance. 2. According to the TAC report, the quoted model Atlan A100 is stated to have a quality certificate issued by JP-MHLW. However, Certificate No. 30300BZX00062000 bears a date prior to the reported release date of the Atlan A100 in 2025. This indicates that the quoted model	Grievance of M/s Shirazi Trading against M/s Vertex Representatives of M/s Shirazi Trading and M/s Vertex attended the meeting. Grievance redressal committee heard the both parties in detail. The committee after due deliberation rejected the grievance of the M/s Shirazi Trading against M/s Vertex as the quoted model of the M/s Vertex Medical is compliant to requirement of quality certification. Hence, status of the M/s Vertex Medical in quoted item remained Responsive.

						may not be specifically covered under the said MHLW certification, nor is it explicitly listed under this approval. 3. As per the tender specification, “the machine should be capable of holding two vaporizers”. However, the quoted model Atlan A100 is also available in a configuration supporting a single vaporizer holding. Therefore, it is requested to recheck and confirm whether the offered machine configuration complies with the tender requirement of holding two vaporizers, or if it has been quoted with a single vaporizer configuration. 4. In view of the above observations, the quoted model does not appear to meet the requirement of the prescribed quality certifications, namely FDA 510(k), CE MDD/MDR (NANDO Notified Body), or JP ISO 9001:2015, where compliance with any two quality standards is mandatory. Accordingly, the quoted model should be considered non-responsive.

Kasban's offer is based solely on a tender-specific authority letter for this procurement and does not reflect a valid, ongoing agency or distributorship agreement, which is mandatory. Clause 4 – DRAP License: Kasban does not hold a valid DRAP license for the offered model. Sahar International holds the applicable license. Clause 13 – Past Performance: Authorization was granted only in November 2025. Any claim of prior experience is factually impossible and unverifiable. Clause 14 – Purchase Orders,	Grievance of M/s Sahar International against M/s KASBAN International: The representative of M/s Sahar and M/s KASBN International were heard in detail. The GRC noted that M/s Sahar was authorized distributor of foreign principal before publication of the tender, however M/s KASBN has been authorized by foreign manufacturer for the existing tender. In order to qualify M/s KASBN has attached foreign training evidence of engineer who is claimed to be employee of M/s Sahar International. The said engineer has undertaken that he has never been the employee of M/s KASBN and submitted documents has never been provided by him. he also submitted an affidavit to substantiate his claim. The foreign manufacturer has responded that authorization certificate provided by M/s Sahar International is not authentic/valid. Hence, the both firms tried to influence the procurement process by submitting the unathentic/ fake/ forged documents. The procuring agency is advised to initiate legal action against the firm M/s KASBAN International on the submission of fake documents as per the circular of PPRA vide No. L&M(PPRA)10-01/2011 dated 03.05.2024. Hence, the status of the quoted item remained Non-Responsive.

						Installation & Performance Reports: Due to recent authorization, Kasban cannot have historical purchase orders, installation reports, or satisfactory performance records. Any submitted documents are misleading and cannot be verified. Clauses 15 & 16 – Technical & Managerial Staff: Kasban lacks the required trained managerial staff and engineers. Compliance is materially impossible. Clauses 17 & 18 – Workshop & Spare Parts: Kasban does not possess a compliant workshop or adequate spare-parts inventory. These deficiencies were physically verified by DGHS Purchase Department and Technical Committee, yet the bid was accepted, raising serious transparency and procedural concerns. Part II – Product Evaluation / Mandatory Criteria Kasban has no verifiable 10-year installation record, does not meet the mandatory 5% quantity requirement, is not an authorized distributor since January 2020, and has no credible local market performance history. Any claims to the contrary are unverifiable and inconsistent with tender conditions.

						The acceptance of Kasban's bid despite these facts raises serious concerns regarding transparency, procedural fairness, and compliance with mandatory tender requirements. Relief Requested: Kasban International's bid should be declared NON-RESPONSIVE under Part I and Part II and excluded from further evaluation. This action is necessary to ensure fair, transparent, and compliant procurement in line with tender conditions and PPRA principles. Grievance 2 – Kasban International Grievance: Selective and inconsistent application of tender criteria. Kasban International's bid for Package No. 15 was wrongfully declared RESPONSIVE under both Part I and Part II, despite multiple material deficiencies, lack of mandatory DRAP license, absence of past performance, unverified purchase orders, and inadequate technical staff and infrastructure. It is requested that Kasban International's bid be declared as non-responsive, safeguarding compliance, transparency, and fairness in the procurement process. The offers of M/s Epics Global Trading, M/s Field Supplies, M/s GET Supplies, M/s Human Healthcare, and M/s Total Technologies were rejected under Part I and Part II for failing to provide mandatory documentation, including valid authorization, past

						performance, technical staff, and other required proof. Kasban International, however, lacks the same mandatory documentation, including DRAP license, past performance, technical personnel, and installation history, yet its bid has been declared RESPONSIVE. This constitutes procedural disqualification and demonstrates selective application of rules: Mandatory requirements were enforced against some bidders but ignored for another. Evaluation avoids direct comparison that would expose non-compliance. Process creates the appearance of compliance while permitting non-compliant bids to proceed. Undermines transparency, fairness and Integrity of procurement. Relief Requested: It is respectfully requested that the evaluation of all bidders be reviewed for consistency, that Kasban International be declared NON-RESPONSIVE, and that the rejected bidders be reassessed under uniform application of tender criteria, ensuring procurement that is transparent, fair, and compliant with PPRA principles.

214	M/s Hospicare	Pulse Oximeter	GUANGDON G BIOLIGHT MEDITECH Co.Ltd China	Responsive	N/A	Grievance of M/s Eastern Medical Technology against Hospicare With reference to the technical evaluation report, it is noted that the above-mentioned firm has offered Pulse Oximeter Model: V6, manufactured by M/s Guangdong Biolight Meditech Co. Ltd., China. As per the advertised technical specifications, the offered Pulse Oximeter is required to be compliant with the mandatory feature of Pulse Strength Perfusion Indication. However, based on the Product Data Sheet and the FDA 510(k) certificate, the offered model does not support or provide the required Pulse Strength Perfusion Indication feature. (Please find enclosed FDA Certificate). The absence of this critical parameter constitutes a major technical deviation from the advertised specifications and directly impacts the monitoring of vital patient care indicators. In view of the above-highlighted non-compliance, it is respectfully requested that the procuring agency declare the bid of M/s Hospicare as NON-RESPONSIVE, considering the significance of the missing parameter in patient care and clinical monitoring.	<u>Grievance of M/s Eastern Medical Technology against M/s Hospicare</u> Representatives of M/s Eastern Medical Technology and M/s Hospicare attended the meeting. The quoted unit has been observed as technically non-compliant with mandatory tender specifications on the following grounds: 1. No proper intensity/irradiance control mechanism provided. Intensity adjustment by partial switching (half ON / half OFF) instead of controlled dimming, raising concerns regarding uniform irradiance and defined LED life hours. 2. Irradiance output not meeting advertised and tender-specified values. Which may increase therapy time due to low irradiance 3. Non-compliance with tender-specified intensity requirements. 4. Not microcontroller-based, New technology is available now 5. Mechanically unstable design; stand is waving and unsafe for neonatal use. Poor mechanical design with no safe tilt adjustment and heavy, unbalanced head 6. Old design, not aligned with current clinical standards. However, based on the physical samples submitted, only M/s Dynamics provided a sample of a locally manufactured bench, whereas the remaining samples were of imported origin. As a long-standing importer of these benches in Pakistan, we are not aware of any established local manufacturing facility producing benches with polyurethane (PU) cushioning. The sample submitted by M/s Pieces Engineering consisted of a combination of four (04) PU sheets and two (02) foam-cushioned sheets, which does not represent a complete or uniform configuration and creates ambiguity regarding compliance. Furthermore, the combined weight of the submitted PU and foam-cushioned sheets does not meet the minimum weight requirement of 9 kg as specified in the Bidding Documents. Although M/s Pieces Engineering has claimed in-house manufacturing capability supported by a PU injection molding facility, to the best of our knowledge and market experience, no such PU injection molding plant for these benches is available in Pakistan. 1	Medtex Solutions	Disposable sheets	Local Pakistan	1. Length & Width of quoted item is not as per advertised specifications.	With reference to the subject mentioned above, we wish to submit our grievance regarding the technical evaluation report which was shared in WhatsApp group on 26-02-2026. One of our submitted items, Item No. 63 Category – F Disposable sheet, has been marked as "not compliant" on the grounds of 1- Length and width of quoted items is not as per advertised specification. In this regard, we would like to inform you that the sample submitted by us was strictly in accordance with the prescribed specifications. We request you to kindly recheck our submitted sample and consider it for responsive, in the interest of fair and healthy competition. We shall be grateful for your prompt action and cooperation in this matter.	No representative of the firm attended the meeting. The Committee examined the submitted grievance in the light of laboratory reports of the quoted item and bidding documents. After due deliberation and discussion, the Committee decided to reject the grievance submitted by the firm and upheld the findings of the Technical Evaluation Report. 2	Medtex Solutions	Draw sheet	Local Pakistan	Sample non-Compliant 1. Draw sheet size not compliant to advertised specification. 2. Draw sheet cotton content with polyester not as per advertised specificalton	Subject: Grievance Regarding Technical Evaluation Report for Draw Sheet against Tender Reference No: PC-9/EQUIPMENT&FURNITURE/MHC/2025-26 Dear Sir, With reference to the subject mentioned above, we wish to submit our grievance regarding the Technical Evaluation Report shared in the WhatsApp group on 26-02-2026. One of our submitted items, Item No. 41 – Category F (Draw Sheet), has been marked as "Not Compliant" on the following grounds: 1. Cotton content with polyester not as per advertised specification. 2. Draw Sheet size not compliant with the advertised specification. In this regard, we confirm that the sample submitted by us complied with the prescribed size specifications and was of good quality. We kindly request you to review the evaluation again along with the Lab Report. As per the advertised specification, the essential requirement is that the cotton content should be more than 40%, while no specific percentage for polyester has been mentioned. Therefore, we request clarification on the exact cotton and polyester percentages recorded in the Lab Report. We further request you to kindly provide us with a copy of the Lab Report to confirm the cotton percentage and related test findings. Since the primary objective of the department, as per the advertised specification, is to ensure that the cotton percentage exceeds 40%, and the polyester percentage has not been specified, we respectfully request a fair review based on the Lab Report and the stated criteria. We hope the department will re-examine the matter and take a fair and justified decision. We shall be grateful for your prompt action and cooperation in this matter.	No representative of the firm attended the meeting. The Committee examined the submitted grievance in the light of laboratory reports of the quoted item and bidding documents. After due deliberation and discussion, the Committee decided to reject the grievance submitted by the firm and upheld the findings of the Technical Evaluation Report. Hence, the status of the quoted item remained Non-responsive.
3	M/s Sheikhpura Surgicals	Draw sheet	Local Pakistan	Sample non-Compliant 1. Draw sheet size not compliant to advertised specification. 2. Draw sheet cotton content with polyester not as per advertised specificalton. 3. Fabric mass per unit area (GSM) not as per advertised specificalton.	With reference to the subject cited above, we respectfully subnit our grievance under Rule 67 of PPRA, Punjab, regarding the sample evaluation of Package No. 41 (Draw Sheet) for the procurement of Bio Medical Equipment. Furniture & Fixture for various healthcare facilities of Punjab on framework Contract basis for FY 2025-26 & 2026-27. We are pleased to state that our firm was declared technically responsive during the technical evaluation stage. However, during the sample evaluation process, Our submitted sample s declared non-compliant with the tender specifications. In this regard, we would like to submit that the sample provided by us is of superior quality compared to the advertised specifications, as it is made of 100%cotton, ensuring better quality. Furthermore, we have come to know after the finahcial opening that our quoted rate is significantly lower than the lowest quoted rate. resulting in substantial financial benefit to the government exchequer. In light of the above, we respectfully request your ind consideration of our submitted sample. We further request that we may allowed to submit a fresh sample fully compliant with the tender specifications for your evaluation. Our quoted rates are considerably lower than those of M/S Apex Enterprise, and acceptance of Our bid wOuld ensure both quality and cost-effectiveness for the department.	No representative of the firm attended the meeting. The Committee examined the submitted grievance in the light of laboratory reports of the quoted item and bidding documents. After due deliberation and discussion, the Committee decided to reject the grievance submitted by the firm and upheld the findings of the Technical Evaluation Report. Hence, the status of the quoted item remained Non-responsive.
